

Seeds can be ordered by email (click Seedbank on the Contact Us webpage) or by postal mail.					
If you want seeds sent to you by mail, please send a self-addressed, stamped return envelope to Hans Griesser, 5 Coleman Road, Gumeracha SA 5233.					
If a taxon is not on this list, please check with me per email (click Seedbank on the Contact Us webpage) and I'll try to chase up some seeds					
When placing an order, it may be useful to send me an email, so I can let you know if there might be a slight delay, for example when I am away					
Please note that some seeds, especially the older lots, are available in small numbers only					
Genus	Species	Subspecies / Variety	Year collected (often Dec)	Web Links / Photos	Comments
Acacia	acinacea		2019	<a href="http://www.anbg.gov.au/acacia">http://www.anbg.gov.au/acacia</a>

same				2022		white flowers, perennial plant
* M "smithiorum" at Nangawooka has small linear leaves and purple-pink flowers. I am not fully sure what the new name is after the Craven revision;						
perhaps M fabri, but Ivan Holliday's Melaleucas book, 2nd edn, has a very different species under that name
